LAST NIGHT on the RADIO

Reception Tuesday night showed some improvement on DX stations but WGY was not as clear as on Monday night. KDKA had a period of spreading over about 30 numbers on the dial. There was a little static. WSM, WGN, WLW, WJAX and WTAM were especially good stations. WPAF and WJZ were unusually free from fading.

FUNERALS MOST EXPENSIVE IN STATE OF NEW JERSEY

New York, Feb. 1 (AP).—The most expensive state in which to die is New Jersey and the least expensive North Carolina, says a report of the Advisory Committee on Burial Service, made after a two years' investigation.

'Wanna Go Home' Cries Lost Girl

Had Been Counting on Delaware Avenue Mall Tuesday Afternoon and Did Not Know Way Home— Officer Kelyea Restores Child to Mother.

Crying bitterly and with big tears splashing down her cheeks, a little five year old girl wandered along Abrupt street about 4 o'clock Tuesday afternoon. She was both bewildered and lost. Her cries were heard by Mrs. John W. Kolts of 74 Abrupt street, who took the little tot into her home and gave her her supper. Mrs. Kolts questioned the child but the only information she could obtain was that her name was Gloria Shultis.

After the child had eaten supper Mrs. Kolts called up police headquarters and told of the little wanderer and Officer Kelyea in the police car drove to the Kolts home and took the child back to police headquarters.

There the little tot was kept for several hours while Sergeant James V. Simpson and others attempted to ascertain her address. All she could remember was that she lived at 15 Main street, and in reply to questioning she whimpered softly: "I wanna go home; I wanna go home."

Thinking that there would be received a telephone call from the child's parents, the little one was kept at headquarters until her mother came and when she did, she was restored to her.

have several... and jetsam which none sees fit to take away. make sure that the piece of stuff you took to be mottled soap is not a lump of ambergris. This precious substance, of which whalemen dream in their ambitious wanderings about the seven seas, comes from the alimentary canal of the sperm whale or cachalot. A few years ago Norwegians fishing in Australian waters found in one whale ambergris weighing approximately 900 pounds. It was worth \$135,000. By contrast, the whole production of the United States in 1922 only amounted to 44 pounds, worth about \$11,500. And not so long ago a piece of good luck befell a Spanish ship, the crew of which found 248 pounds in an Atlantic whale. In centuries forgotten, when sperm whales were more abundant, ambergris did service in sacramental rites. The Chinese administer it medicinally. But most that is found today finds its way to perfumers, who use it as a fixative for delicate scents.

Sizes of Planets
The naval observatory says that the smallest of the major planets is Mercury; diameter about 3,000 miles. Of the minor planets or asteroids, some are so small that it is impossible to measure their diameters. It is estimated that the smallest are less than 10 miles in diameter.
